

ARGININE PEEL

ACTIVE INGREDIENT - Arginine Acid

- Arginine + Lactic Acid Peel is a gentle yet effective rejuvenating peel that combines the skin-repairing properties of Arginine with the exfoliating and hydrating benefits of Lactic Acid. This dual-action formulation provides controlled exfoliation while supporting skin barrier repair, hydration, and collagen stimulation — making it ideal for sensitive, dull, dehydrated, and aging skin. It delivers visible brightness and smoothness with minimal irritation and downtime.

INDICATION

- Sensitive Skin
- Redness
- Rosacea
- Dehydration
- Skin Brightening
- Anti-Aging Support

BENEFITS

- Gentle exfoliation with high skin tolerance
- Improves skin hydration and moisture retention
