

# FERULIC PEEL

## ACTIVE INGREDIENT - Vit C ,Vit E, Hyaluronic Acid, Niacinamide Phloretin

- Ferulic Peel is an advanced antioxidant rejuvenation peel formulated with Ferulic Acid and a powerful blend of Vitamin C (Ascorbic Acid), Vitamin E (Tocopherol), Hyaluronic Acid, Niacinamide, and Phloretin or Resveratrol.
- This synergistic formulation provides brightening, anti-aging, and protective benefits while maintaining skin hydration and barrier integrity. Designed to combat oxidative stress and environmental damage, it improves pigmentation, dullness, and early signs of aging with minimal downtime.
- Ideal for photo-damaged, uneven, and aging skin.

## INDICATIONS

- Photo Aging
- Pigmentation
- Dullness
- Anti - Oxidant Protection
