

Pyruvic Green

ACTIVE INGREDIENT - Pyruvic Acid

- Pyruvic Green Peel (Provic 40%) is an advanced chemical peel formulated with high-strength pyruvic acid for intensive skin correction and rejuvenation. Pyruvic acid has both keratolytic and sebostatic properties, making it highly effective for acne-prone, oily, and photo-damaged skin.
- With its dual action — exfoliation and collagen stimulation — this peel targets acne, pigmentation, enlarged pores, and early signs of aging while promoting smoother, firmer skin. It is recommended for professional use under trained supervision.

INDICATION
