

# *Cool 360°*

Freeze Away Stubborn Fats

## Cool 360° technology

New Cool 360° surrounding cooling system gives even cooling 60% faster from all angles, improving efficiency and results.

The larger encompassing of target area, more fat cells can be targeted and killed per treatment.

Faster, 35 minutes saved

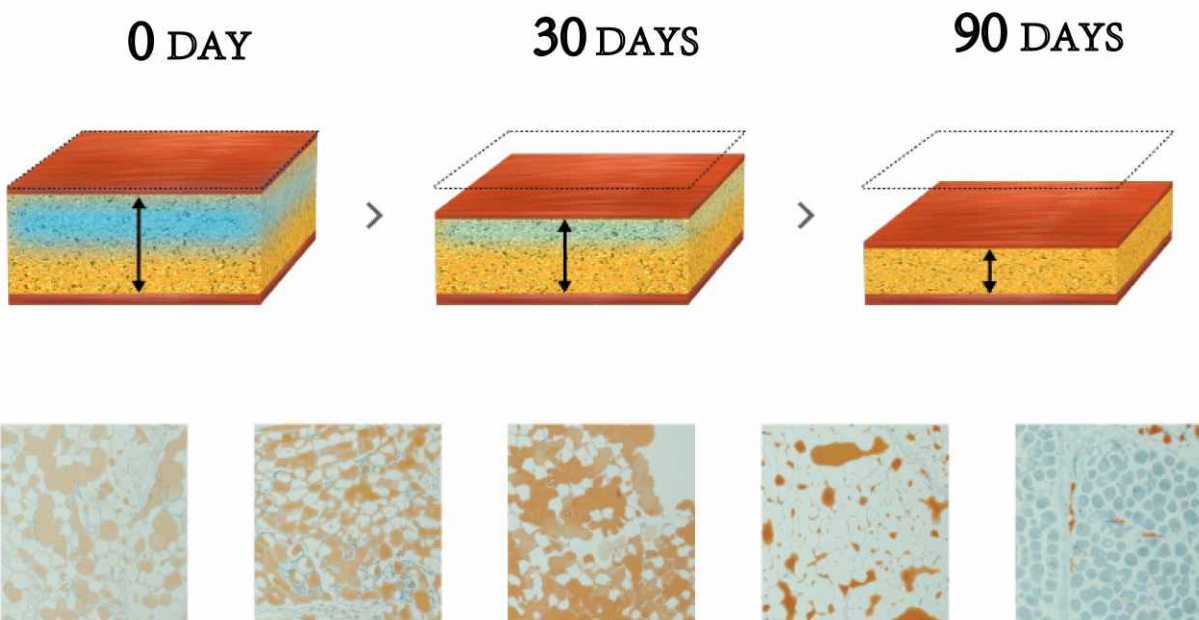

Increased comfort

60% more tissue treated

**Cryolipolysis is** Harvard University patent technology, frozen de-fatting lock temperature technology, getting  $-10$  to  $+5^{\circ}\text{C}$  under the skin, fat cells aging ahead of time and death. The fat cells in the treated area are gently dissolved through the body's normal metabolism process and then the dead cells in 1-3 months via lymphatic system.

0 Day

15 Days

30 Days

60 Days

90 Days

Many of us have stubborn fat despite diet & exercise.

Cryolipolysis technology uses controlled cooling to target & kill only these fat cells.

In the weeks to follow, your body naturally processes the fat and eliminates these dead.

Cryolipolysis procedure results are long-term, as treated fat cells are gone for good.

# Application

## Treatment Area

Abdomen

Double Chin

Upper arms

Thighs

Buttocks

Waist

## Clinical Data

Female | Age 36

Weight: 58.2kgs

Circumference: 56cm(left) 55.5cm(right)  
(before)

inner thigh 2 treatment areas and 3 sessions

Weight: 54.1kgs

Circumference: 53.6cm(left) 51.8cm(right)  
(after)

Female | Age 42

Weight: 70.3kgs

Circumference: 97.6cm(before)

Waist :4 sessions

Weight: 60.6kgs

Circumference: 82.2cm (after)

# Testimonials

DR.Amy

In fact, after a minute or two, you will be completely acclimatised to the sensation and even fell asleep during the 50-minute long session!

DR.Ahmed

360-degrees cooling means a larger surface area of fats is covered, with potentially up to 40% fat reduction in a single session. To benchmark, traditional fat freezing sessions usually hit up to 25% fat reduction.

DR.Mina

we use the clinically tested, Cool 360 is the most technologically advanced system available today, and unlike other cooling treatments, cool 360 has 4 handpieces, so it can treat 4 clients or 4 area at once, saving you valuable time and money.

# Technical Advantages

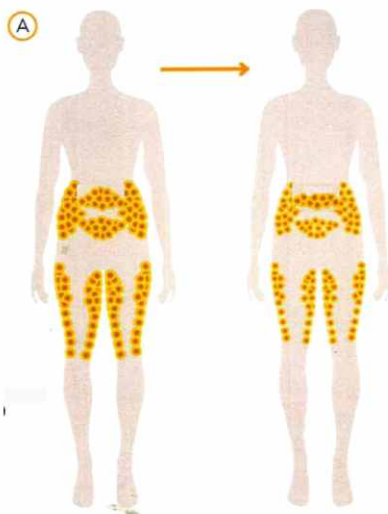

## 01 Proven technology

### Fat Reduction VS Weight Loss

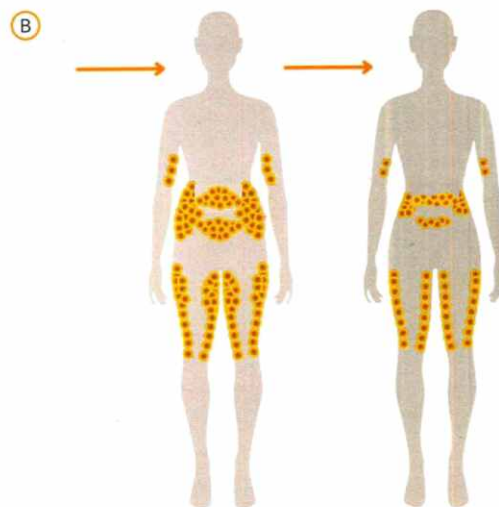

They may sound similar, but fat reduction and weight loss are two very different concepts.

Losing weight doesn't always lead to a more sculpted appearance—but fat reduction can reshape and contour your body.

**Fat Cells (After Weight Loss)**  
Fat cells shrink in volume

**Fat Cells (After Cryolipolysis)**  
Fat cells numbers reduction

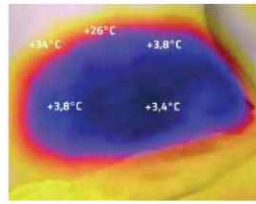

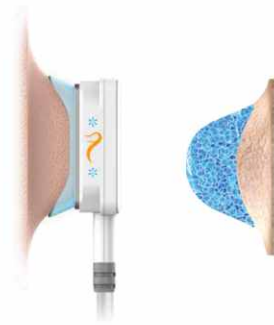

■ What happens when you lose weight?

When you lose weight, the size of your fat cells decreases but the number of fat cells stays the same.

■ What happens after your cryolipolysis treatment?

After treatment, targeted fat cells are eliminated for good so you will have fewer fat cells in the treated areas. Untreated areas will have no change in fat cell distribution.

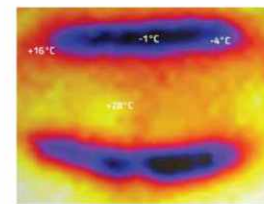

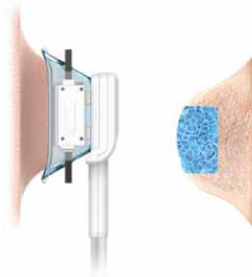

## 02 Cover more tissue

NEW Innovation 360  
touched cooling.  
100% effective cooling area,  
surrounding cooling action in  
entire applicator

V S

Traditional Cryolipolysis  
by Two Chilling Plates  
Only. 40% effective cool-  
ing area, cooling by two  
pads inside applicator

## 03 Localized fat tissue treatment ensure maximum safety.

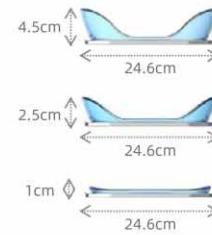

360°surround cooling non invasive cold therapy fat reduction procedure makes fat cells under a process “apoptosis” , the applicator localized reduction of fat deposits. The degree of exposure to cooling causes cell death of subcutaneous fat tissue, without apparent damage to the overlying skin.

## 04 Customized Applicators

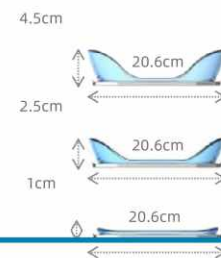

### HANDLE A

(Large Size)  
24.6\*62\*48cm

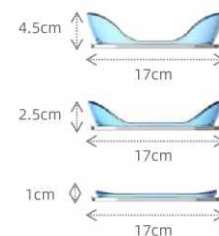

### HANDLE B

(Medium Size)  
20.6\*62\*48cm

### HANDLE C

(Small Size)  
17\*62\*48cm

### HANDLE D

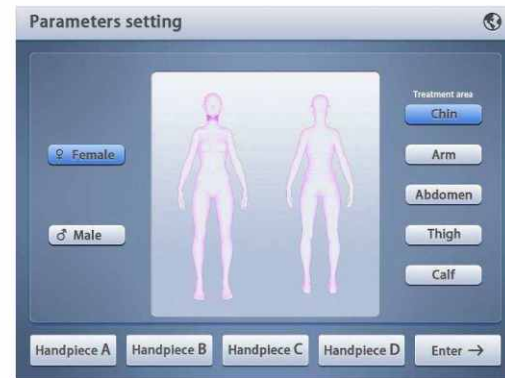

(For double chin)  
8.4\*26\*25cm

## 06 User friendly software

- Intelligent parameter recommending.
- Each handle, after choosing gender and treatment area, the parameter will be recommended automatically.

- 4 handle independent pressure control
- Each handle, the cooling and pressure control separately, more comfortable and safer

## Specifications

|                     |                                  |
|---------------------|----------------------------------|
| Power Supply Output | 1000W                            |
| Handles Number      | 4                                |
| Vacuum Pressure     | 0-60kpa                          |
| treatment time      | 0-60mins adjustable              |
| Cooling System      | water+wind+semiconductor         |
| Cooling Temperature | -10℃ to 10℃                      |
| Screen              | 15" true color touch LCD display |
| Language            | multi languages                  |
| Voltage             | 110V/220V                        |
| Package size        | 67*63*123CM    76*51*44CM        |

Accurate Temperature  
Control System

New Technology  
360 Degree Cooling

10 Size Contours  
Versatile use

Non Invasive  
No Pain  
No Rebound

Up to 40% fat reduction  
Satisfied Results

# Benefits

## Clinical benefits

- Effective and safe therapy
- Comfortable treatment
- Non-invasive and minimal downtime
- Hand free operation
- Permanent fat reduction

Super 360° cool sculpture can generate up to

**\$800/session**

| Treatment Area | Average Fee | Sessions | Total  |
|----------------|-------------|----------|--------|
| Abdomen        | 800         | 1        | \$800  |
| Double Chin    | 700         | 3        | \$2100 |
| Upper arms     | 650         | 2        | \$1300 |
| Thighs         | 600         | 2        | \$1200 |
| Buttocks       | 800         | 3        | \$2400 |
| Waist          | 800         | 3        | \$2400 |
