EXO+ HAIR

I REGLORY EXO+ PLANT Effects

- 1 | Enhances dull skin tone.
- 2 | Reduces dark spots.
- 3 | Prevents wrinkles.
- 4 | Regulates sebum balance.
- 5 | Strengthens the damaged skin barrier.
- 6 | Provides skin elasticity care.
- 7 | Improves blemish marks.

Areas of Application

Face

Neck

Back of hand

Scalp

I How to use

- 1 | Slowly mix REGLORY EXO + PLANT powder (200mg) with the solution (6ml) until the powder is completely dissolved. If it foams, wait until it dissipates before use.
 - 2 | Apply the mixed ampoule evenly to the treatment area and
 - 3 | Additionally, use a high- intensity ultrasound management device such as SONO, LDM – (Local Dynamic Microwave, etc. to enhance the absorption of exosome components.
- ※ Both injectable and MTS procedures.
Treatment Interval : 4 treatments at intervals of at least 7 to 15 days in between.

EXOSOME

REGLORY EXO+

I Product Features

REGLORY EXO PLUS contains not only **95% Human Adipose-Derived Stem Cell**

Conditioned Media cultured using a serum-free medium to enhance the efficacy of active ingredients but also Niacinamide, Adenosine, Sodium Hyaluronate, Sodium PCA, and Betain. EXOSOMES created through a process of isolation and purification from stem cells, have a lipid membrane identical to that of cell membranes, enabling them to

REDUCES FINE LINES

Reduces dark spots and enhances skin tone

Soothes skin and alleviates blemishes

Improves skin hydration and elasticity

Helps with acne and acne scars

Minimizes pores and refines skin texture

EXOSOME

REGLORY EXO+ HAIR

I Product Features

Reglory EXO+ Hair contains **95% Human Adipose-Derived Stem Cell** Conditioned Media cultured using a serum-free medium to enhance the efficacy of active ingredients, as well as Caffeine, Sodium Hyaluronate, Sodium PCA, and Betaine. EXOSOMES, created through a process of isolation and purification from stem cells, have a lipid membrane identical to that of cell membranes, enabling them to traverse any tissue within the body.

I REGLORY EXO+ HAIR Effects

1 | Androgenic Alopecia (AGA)
Improves scalp condition by addressing thinning hair and reduced hair density

2 | Oily Scalp
Cares for clogged pores and scalp troubles caused by excess sebum.

3 | Poor Scalp Circulation
Enhances scalp condition by supporting nutrient supply to hair follic.

4 | Telogen Effluvium (TE)
Helps alleviate temporary hair loss caused by stress, hormonal changes, etc

5 | Dry Scalp
Prevents excessive dead skin cell production due to lack of moisture.

6 | Damaged Scalp
Protects and restores the scalp from damage caused by dyeing, perming, and UV exposure.

I How to use

(1) Essential Step
Applicable to all customers, regardless of whether they have washed their hair

(2) Scalp Soaking
Essential for maintaining scalp cleanliness; can be skipped if hair is sparse.

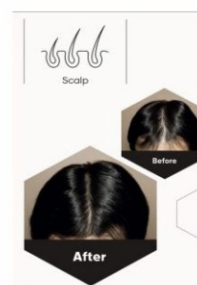

(4) Application & Absorption
Apply the ampoule evenly and use a micro-needling device to enhance absorption.

(3) Mixing
Slowly mix REGLORY EXO+ Hair Powder (200mg) with Solution (6ml) and wait until the bubbles disappear.

LIFTING

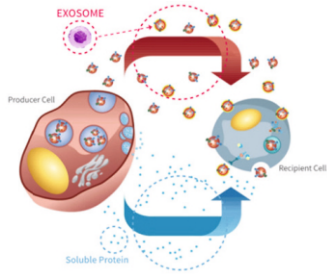

Lifting effect by improving density by d
ermal cell proliferation

- Rich hydration to the skin
- Wrinkle reduction and boost in elasticity
- Immediate radiance to the skin

- High biocompatibility
- Improvements to skin density and skin tone

“ Polynucleotides are tiny purified molecules injected into the skin which encourage it to maintain its youthful appearance. They are commonly referred to as biostimulators or biorevitalizers. This injectable is a cosmetic treatment quickly gaining popularity due to its ability to promote skin regeneration and encourage revitalisation naturally. ”

What is EXOSOME?

Exosomes are distinct cellular entities, released from cells into the surrounding extracellular fluids.

They function as 'Avatars' of the cells.

Exosomes play significant roles in **cell to cell communication** and **paracrine factor**.

Exotraction® Technology Guarantees High Quality EXO THERAPY

- Higher Exosome Purity
- Higher Exosome Contents
- Higher Stability Processes
- Optimized 2 Track Culture Process
- Korea's First Human Stem Cell Culture Facility
- Korea's Largest Freeze-Drying Facility
- Use of a Proprietary Stem Cell culture medium & RAP(miRNA Associated Particles Process) Exosome Fusion Process
- Production and Supply of Stem Cell Products for more than 15 years

Lyophilized EXOSOME Powder

Over 150 kinds of proteins with
diverse beneficial effects

Synergistic Effect Ampoule

Skin activation ingredients

Anti-wrinkle

Collagen, Fibronectin, TGF- β , PDGF

Whitening

Cica exosome

Collagenase inhibitor

MMP1, MMP2

Brightening

Excellent moisturizing and skin elasticity agent

PDRN, the core of Anti-Aging (DNA ingredient) – Kiara Reju

PDRN, DNA unit that is a basic unit for supplying energy to the human body, with a hyaluronic acid (natural moisturizing factor) is the strongest skin moisturizing and regeneration facilitating solution that can simultaneously stimulate the regeneration and shiny skin

+

PDRN _ Poly Deoxy Ribo Nucleotide

Hyaluronic Acid

The solution for shiny and regeneration of skin completed with PDRN and Hyaluronic Acid

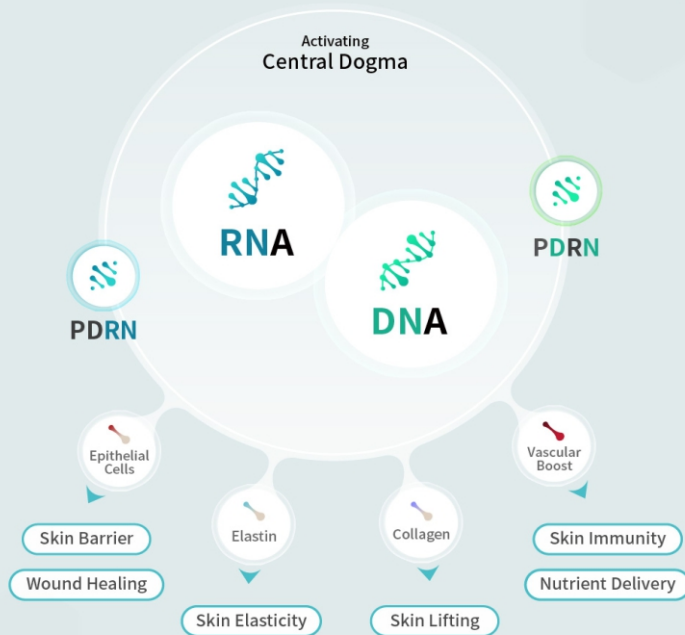

With biosynthesis action in skin tissues(epidermis, dermis) of PDRN which is a regenerative activity material of cell tissue, it recovers and maintains elasticity and health of skin. Hyaluronic Acid which is a component of human body gives moisture, moisturizing, smoothness, and shines the skin and makes your skin healthy and elastically in addition to make glowing skin tone.

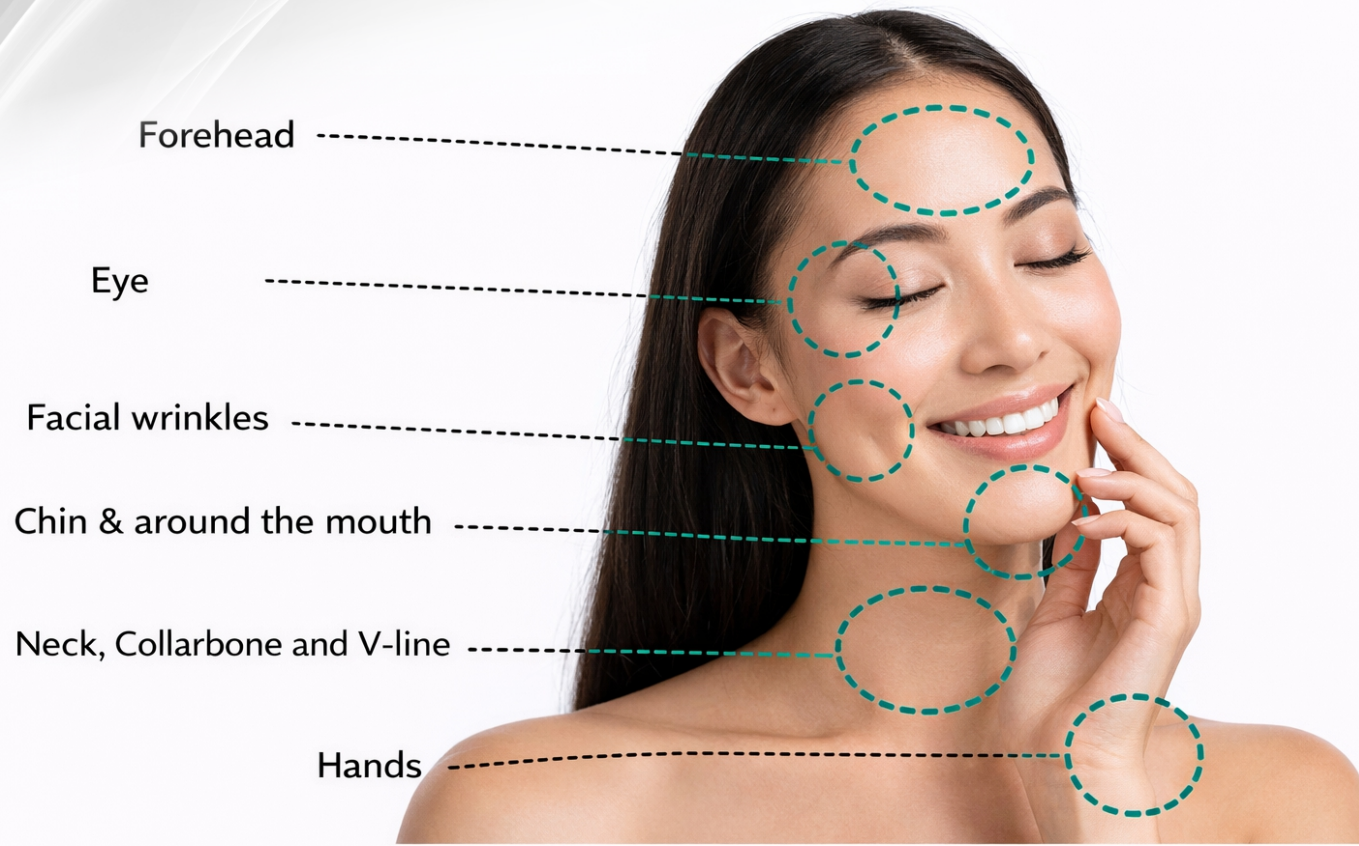

Rich & Young Skin Structure

Purified PDRN acts as a direct DNA source, fueling the skin's self-regeneration. As a key form of nucleic acid, it restores Collagen, Elastin and Cells.

SALMON PDRN REVO SERUM

REGLORY EYES

Name	Reglory Eyes
Concentration	Polynucleotide 2mg/ml Niacinamide 3mg/ml Botulinum Polypeptide
Features	Anti-aging, Moisturizing, Brightening
Areas of Application	Face, Around the Eyes, Neck, Back of hands
Indication	Superficial layer or epidermis / Dermis
Treatment Interval	3 sessions with an interval of 4 weeks Repeat the treatment twice a year
Duration	Over 3 months
Mshelf Life	36 months from the date of manufacture
Package	1.1ml * 1syringe / box

REGLORY PN+

Name	REGLORY PN PLUS
Concentration	Sodium Hyaluronate 50mg/2.5ml Polynucleotides 5mg/2.5ml Niacinamide Glutathione
Features	Moisturizing, Anti-aging, Brightening
Areas of Application	Face, Neck, Décolleté, Back of Hands
Indication	Upper to Mid Dermis
Treatment Interval	3~5 sessions with an interval of 2~3 weeks Repeat the treatment every 3 months
Duration	2~3 weeks
Expiry Date	36 months from the date of manufacture
Storage Temperature	Store in a cool, dry place at a temperature of 1 to 30 °C
Package	2.5ml * 3 syringes / box
