

LUMA 1200 *Stellar*

Diode Laser Hair Removal + Hair Analyser

**SUPER DIODE
LASER
MACHINE**

Compressor
Refrigeration
(optional Module)

FAC
Targeting Module
(optional module)

Interchangeable
Spot-Size Handpiece
(optional module)

Product Advantages

High quality laser bars

4 spot size for comfort treatments

Oversized high quality full display,

HD display for better treatment

Wavelength:

755nm+ 810nm+940nm+1064nm

for effective results

Technical Parameter

Laser type	808 semiconductor laser
Wavelength	808nm, 1064nm, 755nm
Energy Density	1-150J/cm ²
Lens	Sapphire lens
Pulse duration	1-400ms
Frequency	1-10HZ
Refrigeration system	Air-cooled water-cooled compressor refrigeration
Laser power	1200w
Output power	1200W
Spot head	8*8mm, 12*12mm, 12*16mm, 12*25mm, 12*34mm
Handle temperature	-10°C~10°C
Working Voltage	220V 50HZ/110V 60HZ
Screen	15.6 inch LCD all-in-one touch screen
